## STATIONARY FEED MIXER SDI450

### About Product

As İZELMAK, we are proud of being both domestic and national and competing with global companies by producing all parts of our machines in-house. By using SDI 45 you can quickly obtain homogeneous feed which can be easily distributed. Thanks to its powerful motor and spiral design, contain Vertical augers which are used in the feed mixer, it preserves the natural texture of the feed and also it can produce very fine feed. And also the feed does not turn into wet.
